

## Field Day Status – As of April 9, 2002

by Steve Welsh, AD4E

To date, Carl Hayes, NN5I, has put forth a significant effort towards preparing TARS for this year's Field Day. He has single-handedly revived an older tri-band antenna that was donated by Allen Terrell, N4KGT. Although this antenna was near complete as donated, a couple of small parts were either missing or deteriorated. Being the crafty person he is, Carl located the parts needed & machined them as

needed to render the antenna ready for action come June 22 & 23. Although Russ Wood, WA4DZL, had offered some of these parts for use too, they weren't needed in the end. A big thanks to Carl & Russ!

David Heupel, KG4ACF, will be coordinating the logging, and submission of all contacts made during Field Day. This is no small task as it involves providing laptop computers & software for four stations (two HF,

VHF, & GOTA). Ensuring the integrity of each station's logs & their submission for scoring is a real responsibility.

Kent Hutchinson, KC4TOC, has once again secured the Mission San Luis State Park for our location. With ongoing building, construction & landscaping, we haven't yet determined our actual setup location. More study is required here.

Bill Lueck, KF4KHJ, & Shawn Johnson, KG4GXU, will co-captain

## President's QSO

I have combined the newsletter this edition, a combined April/May issue. Certain events beyond my control as newsletter editor prevented me from getting a newsletter out to you in April. I do apologize. Additionally, I wanted to ensure that the most recent version of TARS bylaws

were published in the May newsletter, therefore accounting for a further delay in May while I tracked down the most recent text. I do hope you understand and accept my apologies for the tardiness.

That aside, June is, of course, right around the corner now, and elec-

tions are held in June. Additionally, a minor change to the TARS bylaws will be introduced for your consideration in June, and will come forward for a vote in the coming months. I encourage you to attend the meeting in June to help elect our next slate of officers for TARS, and

## Meeting Minutes—March 2002

Meeting was called to order at 7:15 p.m. There were 23 members in attendance and 6 guests. Minutes from February were approved.

Repeater Report: The .91 machine is back up (along with the ISS). The .03 machine has some testing going on for voice-over IP and we need to make a "traffic jam" so please use it. Contact Randy Pierce KC4YWP at 922-7424 to get the software. The 442.1 repeater received some equipment from the Sheriff's department. Kudos to Doug Ferrell on getting the .02 controller up. Lastly, with the new construction at TCH, they are looking to TARS for tech-

nical advice with the communications.

### Old Business:

1) Update on National Weather Service APRS stations: The APRS are still boxed up but hope to get that moving again soon. Request made to defer the discussion until next month. Kimo Montague, K4IMO (ex-WD4HWJ), has probably spent 300+ hours on this project.

### New Business:

1) Discussion about what to do with the \$400 that were appropriated for the Field Day antenna. Motion was approved to spend it on club-sponsored events. Steve Welsh AD4E

was given authority to spend for that fund.

2) Committee was formed for the Van Needs Assessment. Members are Steve Welsh, AD4E (co-chair), Jack Heiss, WB0VMZ (co-chair), Shawn Wilson, KG4GXU, and Kent Hutchinson, KC4TOC.

3) David Heupel, KG4ACF, would like to discuss changes to the Bylaws with board members and return with discussion to the club.

4) Gulf Winds Track Club triathlon is March 16 from 7:00-9:00 a.m.

Meeting adjourned at 9:30 p.m.

## Meeting Minutes—April 2002

Meeting was called to order at 7:02 p.m. There were 19 members in attendance and 3 guests. Minutes from March were not available.

Larry Pushor from the Capital City Cyclists was in attendance and spoke about the upcoming TOSRV bike ride on April 20-21. He said there would only be the 200-mile (starting in Quincy) and 100-mile (starting in Cairo) rides, with approximately 500 people coming from all over the country. The route is the same as last year. Kent Hutchinson, KC4TOC, noted that the CCC made a generous donation to the club in appreciation for our support.

**Treasurer's Report:**  
Kent reported that "all is well."

**Repeater Report:**  
Randy Pierce, KC4YWP, advised that all club-owned ma-

chines seem to be working. Randy is in receipt of some equipment donated to the club, including a 12-kW UPS. We are sharing a PL tone on the .03 machine with another in Ocala, and we may need to change the tone. For those on the state's Suncom network, we can do voice-over IP using your computer. There were some glitches in the original software, so contact Randy at 922-7424 for an updated version. We need to work the system so potential users are encouraged to contact Randy. We also need to send a letter of thanks to the Florida Highway Patrol, which graciously donated 7 antennae. Nick had told Randy about it and it was a GREAT donation!

**Testing:**  
Alan Terrell, N4KGT, reported that several people passed tests in March, including one of our guests present

tonight. There is a testing session planned for Field Day weekend – time it to be announced. The next scheduled testing session is May 7.

### Old Business:

1. Events over the next three weeks are: Spring Time Tallahassee 10K run; March of Dimes' Walk America; and TOSRV South.
2. April newsletter is late but will be out soon.

### New Business:

1. Elections are in June. If you want to serve on the nominations committee, contact Randy Pierce, KC4YWP.
2. **Van Needs Assessment:**  
Jack Heiss, WBOVMZ, reported that Bill Lueck, KF4KHJ,

our Get On The Air (GOTA) station. The ARRL has replaced the "novice-technician" station with the GOTA category. It will operate under a different callsign from K4TLH. Although its purpose is very similar to its predecessor, the GOTA category offers more flexibility since it can operate anywhere that the license class of the call sign allows. A maximum of 400 contacts may be added to the K4TLH over-all entry.

Tom Brooks, K4TB, & Randy Pierce, KC4YWP, will be co-chairing our 40/15 meter station. Ted Zateslo, W1XO & yours truly will be co-chairing the 20/10 meter station.

Brett Wellman, KG4KLR, & Kent Hutchinson will be

coordinating our Public Relations. Please contact Brett or Kent if you would like to help them "get the word out".

Carl Hayes will be providing the emergency generator to power our operation.

Station co-captains are still needed for the VHF station. We also need a few folks to help out in providing grub for us all. Its been rumored that some very spicy chili will be available too. The "main course" will likely be catered.

Volunteers are also needed to **simply stop by & operate!** Without folks coming by to say hello & make a few Q's, there wouldn't be a Field Day. Also, ask your co-workers,

friends & neighbors to stop by. Share with them what a wonderful hobby Ham Radio can be. Field Day will take place June 22 & 23. More information is available at [www.arrl.org](http://www.arrl.org) & [www.k4tlh.org](http://www.k4tlh.org)

### **Field Day T-Shirts & Pins**

An order to the ARRL will be submitted in mid-April for ARRL-designed T-Shirts & (hat) Pins. The logo is depicted on page 110 of the April QST or on-line at [www.arrl.org](http://www.arrl.org). The commemorative 2002 design symbolizes this year's new Field Day rule that includes the participation of all of North and South America. T-Shirts are \$13, & Pins (3/4" x 1") are \$5. Contact Steve Welsh if interested.

ensure the continuation and strength of our club and the hobby in the Tallahassee area.

Of course the next big event coming up is Field Day 2002, and from the article above, I'm proud to say that Steve Welsh has everything under control. It looks like this year's

Field Day will be an exciting event, and if some things pan out, there will be some exciting modes and demonstrations that will have everyone talking for quite some time. Please come out to Field Day and remind yourself what amateur radio is all about, get some on-air time in the log, and score a few QSO points for

TARS. As always, everyone is welcome, but we certainly need some operators to work the rigs and keep those tubes and transistors warm. I am really looking forward to Field Day, and I hope you are too!

Until next month,  
73!

## Field Day Update

### **Log-Periodic Antenna to be Donated to TARS**

Jim Rozelle, WB4GTY, has graciously donated this antenna to TARS. The antenna is located in Indian-Head Acres & is still on top

of his tower. Because of its large size & weight, it has been suggested the club sell the antenna & deposit the proceeds into our treasury. Smaller, more portable & practical anten-

nas could then be purchased. A work crew is needed to accomplish this. Please contact Steve Welsh, AD4E, if you can help as "ground crew" as he will be the tower puke!

will take his place on the Van Needs Assessment committee since Jack is leaving for New York for six months. The inventory will be placed on the web site.

3. The National Weather Service is planning to move equipment from its old location at the airport. TARS will salvage as much as possible, and use it at the new building on FSU campus.

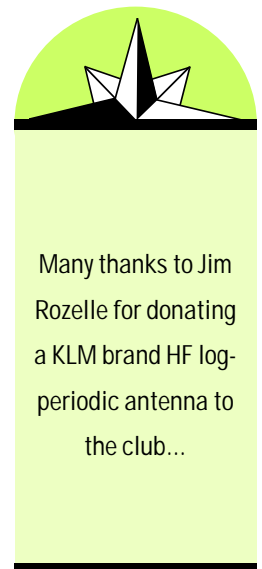

4. **Field Day:** Steve Welsh,

AD4E, reported that Bill Lueck, KF4KHJ, and Shawn Wilson, KG4GXU, are the "Get on the Air" station captains. Steve is still firming up the 40 and 20m station captains, and getting the tri-bander together. Brett Wellman, KG4KLR, and Kent Hutchinson, KC4TOC, will be doing the PR work. David Heupel, KG4ACF, will ensure the logging computers are ready to go when the stations go on the air. The VHF captain and the

food coordinator positions are still open. Other volunteers and operators are still needed. Please contact Steve.

5. Jim Rozelle has donated a KLM log periodic antenna to the club. It was suggested that we take it down (perhaps in May), sell it, and bank the money. To do this well, we should take a picture while it's up, test it on all bands, and mark all the elements.

Meeting adjourned at 8:40 p. m.

Many thanks to Jim Rozelle for donating a KLM brand HF log-periodic antenna to the club...
